- * Transmittal of Project Renewal

Reference: DIR 05758, 3 April 1956

Transmitted herewith as Attachment A is a sterilized copy of the AEBATH Project Outline for the period 1 August 1955 through 31 July 1956, which was approved on 15 September 1955. The terms, cabled to MOB in DIR 02914, formed the basis for the new memo in lieu of contract drawn in the Field and submitted to Headquarters in ECMW 17825. As [] is presently at Headquarters, we were able to make the necessary amendments to the memo submitted from the Field so that it is no longer necessary for MOB to re-submit the Oral Agreement as requested in ECMW 1881, dated 9 February 1956. For your information, we are transmitting as Attachment B a copy of the Agreement in its final form.
